St. Kateri Catholic Schools depend on parental involvement and the community at-large to foster unity, to support our varied activities and to help keep our costs per pupil down. There are many opportunities to get involved. Some projects are on-going throughout the school year and others are specific to a season or event. A short list below outlines some areas where help is needed. Please consider signing up for areas of interest to you and return to the school office by **August 21, 2015**. Thank you.
